

County Executive's Report
12-8-14

County Executive Woody reported on:

1. Correspondence #29 which was a report of income and expenditure of the Courthouse/Jail Maintenance Litigation Tax.
2. Correspondence #30, 31, 32 which reflect three (3) steps in the capital planning process. Woody suggested that the commission review the correspondence along with the capital report published and posted on the county website. If any additional capital projects are determined to be needed and not in any report, the commission should work through those additional requests through the committees.
3. Correspondence #17-#27 were discussed by Executive Woody, commissioners, Bubba Rickett with Patriot, Jess Conway and Keith Gibson with State Comptroller's Office, along with David Morgan, Property Assessor. Woody stressed to Morgan that he must satisfy the Comptroller's office request.
