

County Executive's Report

August 10, 2015

Correspondence #7- Animal Control Advisory Committee minutes

1. The county has a Memorandum of Understanding (MOU) with Anderson County to assist in the housing of their animals as they build a new facility. Either party can exit the memorandum at any time with a 30 day notice. Roane County is charging Anderson County the same daily rate as we charge the cities.
2. We (Anderson County Mayor Frank & Roane County Executive Woody) have agreed to a five day period for the memorandum of understanding instead of the stated three days.

Correspondence #13- Freedom of Information requests

- As commission can see, we are spending a significant amount of time responding to animal shelter inquiries and are exploring instituting a volunteer program, along with our Animal Control Advisory Board being more active.

Correspondence #15- Letter to Harriman Mayor Chris Mason

- We have reached out the Harriman to see if they are interested in purchasing the Gencay properties after they are demolished. An article in the newspaper had Harriman expressing a possible interest in these properties. We are able to sell the properties directly to another governmental agency without going through the surplus and bidding processes.
- The demolition schedule for the buildings is:
 - The contract has been awarded for the demolition of the buildings. The contractor is also responsible for finishing the site to a 1:2 slope in order to prevent collapse of the adjacent roadway.
 - Monday, August 17- Abatement activities begin
 - Week of August 17- Pre-construction activities & abatement
 - Week of August 24- Other hazardous materials removed
 - Wednesday, September 2- Demolition starts
 - October 31- Completion date

Correspondence #19, #20, #21 & #22- Codes Enforcement reports

- These are reports prepared by the Building Inspector/Codes Enforcement office. These will be made available for the Building Inspector, Code and Review Committee on a monthly basis and will be periodically filed with Commission.

Executive Woody deferred the remainder of his time to Jason Mumpower, Chief of Staff, Office of the Comptroller of the Treasury. Mr. Mumpower presented a powerpoint presentation on the reappraisal program completed for Roane County by the Division of Property Assessment. (presentation is on file in County Clerk's office)
