

Office of Emergency Services

Scott Stout - Director

Mission Statement

To lessen or prevent the effects of disasters and emergencies on the lives and property of the people of Roane County through leadership, response, and coordination.

Office of Emergency Services

❖ **Emergency Management Agency Division**

- ❖ Division of Emergency Communications

- ❖ HazMat

- ❖ Fire Division

- ❖ Risk Management Division

Focus of Operations

❖ Emergency Management Agency Division

Immediate Goals:

- ❖ EOC Staff Training
- ❖ ICS Training
- ❖ County Responder Training
- ❖ Update Watts Bar Shelter & Decontamination Field Operations Guide Plan (FOG)
- ❖ Update Multi-Jurisdictional Emergency Response Plan (MJERP)
- ❖ Produce Educational Public Service Announcements

Focus of Operations

❖ Emergency Management Agency Division

Long-term Goals:

- ❖ Update computer system in Emergency Operations Command Center
- ❖ New Office of Emergency Services facility
- ❖ Maintain all emergency plans
- ❖ Update hazardous materials response equipment

OES Total Budget

| 2015/2016 Budget | | 2014/2015 Budget | |
|-----------------------------|----------------|-----------------------------|----------------|
| Fire- 121 | \$528,320.00 | Fire- 121 | \$535,618.00 |
| EMA- 101 | \$422,742.00 | EMA- 101 | \$444,616.00 |
| Risk Management- 101 | \$437,260.00 | Risk Management- 101 | \$523,322.00 |
| Total Appropriation | \$1,388,322.00 | Total Appropriation | \$1,503,556.00 |

Grants

- Emergency Management Performance Grant (EMPG)- The EMPG provides a funding mechanism for local governments to help offset the cost of local emergency management activities. The EMPG is a performance based grant that is awarded to counties that meet the emergency management standard as set forth by the Federal Emergency Management Agency (FEMA). Roane County has received and EMPG Grant annually since 2002. EMPG activities include:
 - Review and Update all Emergency Response Plans.
 - Maintain local emergency communications systems.
 - Provide training for emergency responders and the public.
 - Conduct multiple emergency based exercises each year.
- Homeland Security Grants- Homeland Security grants have been a major funding mechanism for Roane County and the municipalities. These grants which came about after the terror attacks on 9/11. This federal funding has provided valuable equipment to the emergency responders of Roane County that normal operating budgets could not support. These grants have provided such equipment as interoperable communication equipment, responder personal protective equipment, and many other hazardous materials response tools. Roane County has received Homeland Security Grant funding annually since 2002
- Department of Energy Grant- The DOE grant provides funding for Roane County to help offset the cost of maintaining a high level of readiness in the event of an emergency at the Oak Ridge DOE Facilities. These grant funds are received annually and enable Roane County to maintain specialty training and equipment specific to responding to the DOE.
- TVA Grant- This TVA grant provides funding for Roane County to help offset the cost of maintaining a high level of readiness in the event of an emergency at the Watts Bar Nuclear Plant Facility. These grant funds are received annually and enable Roane County to maintain specialty training and equipment specific to responding to the TVA fixed nuclear facilities.

Grant Reports

❖ **EMPG** - \$43,500

❖ **Homeland Security** - \$15,970

❖ **DOE** \$16,000 –Waiting to execute new contract

❖ **TVA** - \$29,137.63

Enhancing Roane County

- ❖ Professional Development Training
- ❖ Emergency Response
- ❖ Disaster Drills
- ❖ Equipment Upgrades/Maintenance

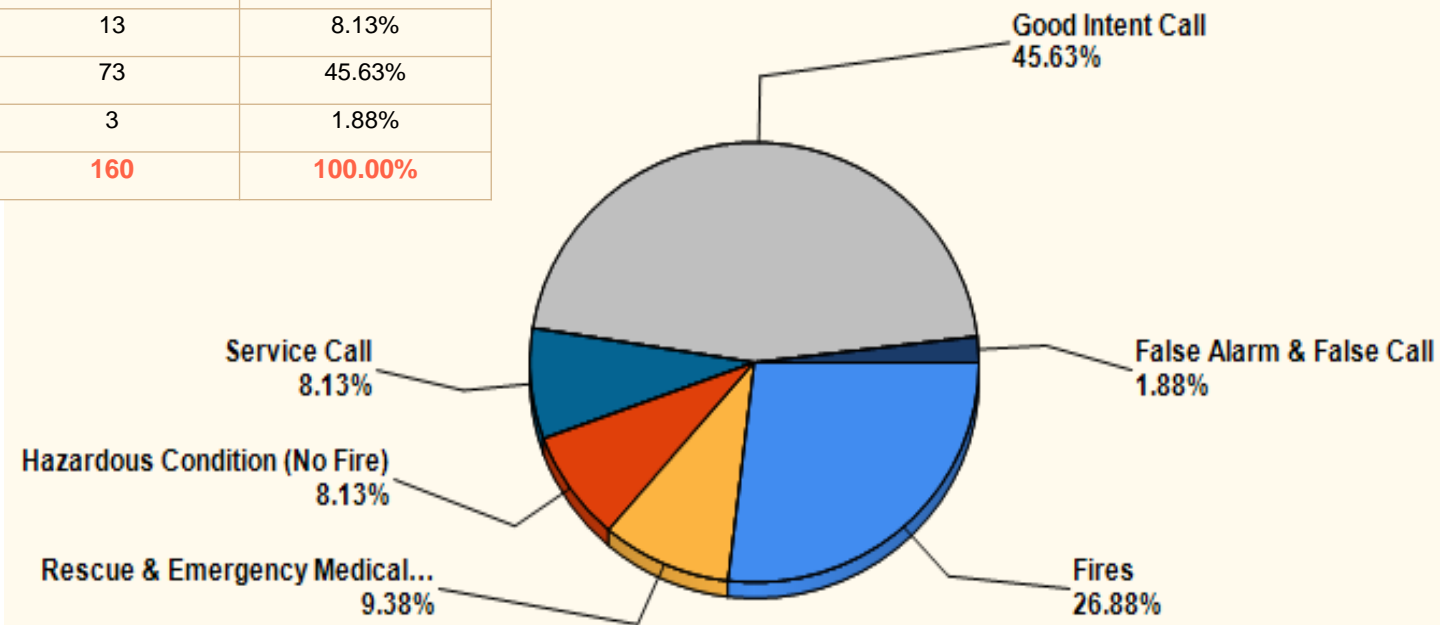

2015 Professional Development

Emergency Management Agency Division

- ❖ HazMat Awareness & Operations
- ❖ FEMA ICS 300
- ❖ Fundamental Concepts for Radiological Response
- ❖ TEMA Radiological Response
- ❖ HazMat Technician Team Operations

Major Incidents for FY 14/15

| MAJOR INCIDENT TYPE | # INCIDENTS | % of TOTAL |
|------------------------------------|-------------|----------------|
| Fires | 43 | 26.88% |
| Rescue & Emergency Medical Service | 15 | 9.38% |
| Hazardous Condition (No Fire) | 13 | 8.13% |
| Service Call | 13 | 8.13% |
| Good Intent Call | 73 | 45.63% |
| False Alarm & False Call | 3 | 1.88% |
| TOTAL | 160 | 100.00% |

MASS SHELTERING OF CONTAMINATED PERSONS

On Thursday, July 30th, the Roane County Office of Emergency Services & Homeland Security completed an evaluation of the HazMat Team's preparedness and emergency response to the decontamination and shelter of contaminated persons in the event of a nuclear incident. Roane County OES is evaluated every two years due to our close proximity to the Watts Bar Nuclear Facility. The training exercise benefits Roane County in assessing its ability to handle potentially contaminated residents in the event of a catastrophic release of radioactive material. OES Director Scott Stout, along with Acting Captain Chuck Hiatt, orchestrated the training exercises utilizing the resources of the Roane County HazMat Team, Roane County Health Department, Roane State Police, EMS, and Sheriff's Office personnel. These local agencies also partnered with the American Red Cross and Tennessee Emergency Management Agency (TEMA) to complete the drill. OES initiated this training exercise at Roane State's main campus located in Harriman. The graded exercise was successful in achieving the criteria set forth by Federal Emergency Management Agency (FEMA) standards. OES feels confident in its preparedness to respond and meet the community needs in the event of an emergency. OES will remain dedicated to future training endeavors.
