Yes – if that storage building is over two hundred (200) sq. ft. A permit is required even if you purchase the building from a lot and the structure is not on a permanent foundation. All accessory structures require a site plan showing all detached structures on the property, the location of septic tank and lines, utility lines, house, and property lines.

It is recommended that you consult your subdivision covenants or deed restrictions, which may address the location and exterior finish of detached structures allowed within your particular subdivision. Roane County does not enforce subdivision covenants.

#### **16. How do I know if I'm dealing with a reputable contractor?**

- Number one – are they licensed? Tennessee law requires that a general contractor or home improvement contractor be licensed if value is over 25,000. Ask to see proof!
  - Do they have insurance? In most cases, State law requires that they carry workers compensation insurance. Ask to see a Certificate of Insurance.
  - Ask to see some identification. Be sure you know the correct name of the individual you are dealing with; his/her address, and telephone number(s).
  - Ask for at least two references – and check them out!
  - Make sure all agreements are in writing! Be sure to reduce all change orders or contract amendments to writing.
  - Make absolutely sure they obtain the required building permits – can call for and pass the required codes inspections! Make sure the building permit is conspicuously posted before the work begins, and be sure you are furnished with a Certificate of Occupancy Certificate issued by the Codes Department, before making final payment of the contract amount.

#### **17. Where can I buy a codebook?**

First, determine “which” codebook, or books. Be sure to note the correct “edition” that applies to your building project. Roane County is under the 2012 IRC and IBC.
