Independent Auditor's Report

Roane County Executive and Board of County Commissioners Roane County, Tennessee

To the County Executive and Board of County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Roane County, Tennessee, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the county's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Roane County Emergency Communications District, which represent 1.3 percent, 1.5 percent, and 1.9 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Also, we did not audit the financial statements of the Industrial Development Board of Roane County, which represent 5.8 percent, seven percent, and .6 percent, respectively, of

the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Roane County Emergency Communications District and the Industrial Development Board of Roane County, is based solely on the reports of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Roane County, Tennessee, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General and Highway/Public Works funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note V.B., Roane County has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 60 Accounting and Financial Reporting for Service Concession Arrangements; Statement No. 61, The Financial Reporting Entity: Omnibus (an amendment of GASB Statements No. 14 and No. 34); Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements; and Statement No. 63, Reporting Deferred Outflows, Deferred Inflows and Net Position, which became effective for the year ended June 30, 2013. Roane County early implemented Statement No. 65, Items Previously Reported as Assets and Liabilities and Statement No. 66, Technical Corrections-2012-an

amendment of GASB Statements No. 10 and No. 62, which have an effective date of June 30, 2014.

We draw attention to Note I.D.10. to the financial statements, which describes a restatement to the beginning net position of the governmental activities totaling \$930,863, which was necessary due to the implementation of GASB Statement 65; a restatement to beginning net position of the governmental activities and to beginning balances of the governmental funds totaling \$41,103, which was necessary to reclassify the District Attorney General Fund from a special revenue fund to an agency fund; and a prior-period adjustment to the business-type activities and the Public Utility Fund of \$325,880 to correct an error in capital assets previously reported.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 14-24 and the schedule of funding progress – pension plan and other postemployment benefits plan on pages 104-107 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Roane County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the General Debt Service Fund, combining and individual fund financial statements of the Roane County School Department (a discretely presented component unit), and miscellaneous schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the General Debt Service Fund, combining and individual fund financial statements of the Roane County School Department (a discretely presented component unit), and miscellaneous schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and

other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, based on our audit and the procedures performed as described above, the combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the General Debt Service Fund, combining and individual fund financial statements of the Roane County School Department (a discretely presented component unit), and miscellaneous schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2013, on our consideration of Roane County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Roane County's internal control over financial reporting and compliance.

Very truly yours,

Justin P. Wilson

Comptroller of the Treasury

Roane County, Tennessee Management's Discussion and Analysis For the Year Ended June 30, 2013

This discussion and analysis of Roane County's financial performance provides an overall view of the county's financial activities for the year ended June 30, 2013. In addition, this discussion and analysis includes an overall view of the Discretely Presented Component Unit (DPCU) Roane County School Department. A separate set of financial statements is not issued for the Roane County School Department. The intent of this discussion and analysis is to look at the county's and the DPCU School Department's financial performance as a whole. Readers should also review the notes to the basic financial statements to enhance their understanding of the county's financial performance as well as the DPCU School Department's financial performance.

FINANCIAL HIGHLIGHTS FOR FY 2013

Key Financial Highlights for 2013 are as Follows:

In total, net position of the primary government increased by \$4.6 million, and net position of the DPCU School Department decreased by \$3.8 million. In the primary government, most of the negative unrestricted net position balance (\$19.8 million) is related to the fact that school buildings constructed with county debt are recorded as an asset for the DPCU School Department while the debt issued to fund those capital assets is recorded as a liability for the primary government. Net position of the primary government is related to governmental and business-type activities. Net position of the DPCU School Department is related to governmental activities.

General revenues of the primary government accounted for \$19.3 million in revenue or 58 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$13.7 million or 42 percent of total revenues of \$33.1 million. General revenues of the DPCU School Department were \$51.9 million.

Total assets in the primary government were \$84.1 million as net taxes receivable totaled \$13.7 million; cash totaled \$19.3 million; and capital assets, net of accumulated depreciation totaled \$48.6 million. Total assets in the DPCU School Department were \$103.5 million as net taxes receivable totaled \$12.5 million; cash totaled \$11.8 million; and capital assets, net of accumulated depreciation totaled \$76.5 million.

The county had \$27.4 million in expenses related to governmental activities, with \$12.5 million of these expenses offset by program specific charges for services, grants, or contributions. General revenues (primarily property taxes of \$14.4 million) were adequate to provide current funding for these programs. The DPCU School Department had \$67.9 million in expenses related to governmental activities; \$12.2 million of these expenses were offset by program specific charges for services, grants, or contributions. General revenues of the DPCU School Department (primarily Basic Education Program revenues of \$27.8 million and property taxes and sales taxes of \$13.1 and \$7.9 million, respectively) were adequate to provide current funding for these programs.

Among major funds, the General Fund had \$15.4 million in revenues and \$14.8 million in expenditures. The Highway/Public Works Fund had \$3.3 million in revenues and \$2.6 million in expenditures. The General Debt Service Fund had \$2.3 million in revenues and \$3.2 million in expenditures. Fund balance for the General Fund increased by \$102 thousand. Fund balances for the Highway/Public Works and General Debt Service funds decreased by \$18 thousand and \$737 thousand, respectively.

Using This Annual Financial Report (AFR)

This annual financial report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Roane County as a financial whole (an entire operating entity). The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and the Statements of Activities present an aggregate view of the entire county's finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the county's most significant funds with all other nonmajor funds presented in total in one column. In the case of Roane County, the General Fund is by far the most significant fund. Other major funds include the Highway/Public Works and General Debt Service funds. In the case of the DPCU School Department, the General Purpose School Fund is the only major fund.

Reporting the County as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the county and the DPCU School Department to provide programs and financial activities during 2013, the Statement of Net Position and the Statement of Activities provide a broader picture of the financial activities during 2013. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the county's net position and changes in those positions as well as those of the county's discretely presented component units. This change in position is important because it tells the reader that, for the county and its discretely presented component units as a whole, whether their financial position has improved or diminished. The cause of this change may be the result of many factors, some financial, some not.

In the Statement of Net Position and the Statement of Activities, the county reports its activities as governmental and business-type. The county's governmental activities reported here include: general government; finance; administration of justice; public safety; public health and welfare; social, cultural, and recreational services; agriculture and natural resources; highways/public works; education; and other operations. The county's business-type activities report sewer water treatment.

These services are funded primarily by taxes and intergovernmental revenues, including federal and state grants and other shared revenues. For the DPCU School Department, its activities are also reported as governmental activities. The DPCU School Department's programs and services are reported there. These services are also funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.

Reporting on the County's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The county and its DPCU School Department, like other state and local governments, use fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the county and the DPCU School Department can be divided into three categories: governmental, proprietary, and fiduciary.

Fund financial reports provide detailed information about the county's major funds. The county uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the county's most significant funds. The county's major governmental funds are the General, Highway/Public Works, and General Debt Service funds. The DPCU School Department's major governmental fund is the General Purpose School Fund.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The county and the DPCU School Department maintain many individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. Please refer to the Table of Contents to locate these statements.

Proprietary Funds – Proprietary funds are used to account for activities where the emphasis is placed on net income determination. The county maintained two different types of proprietary funds – an enterprise fund and two internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The county had one enterprise fund to account for sewer water treatment. Internal service funds are accounting devices used to accumulate and allocate costs internally among the county's various functions. The county uses two internal service funds. Specifically, the Workers' Compensation Fund and the Employee Dental Insurance Fund account for risk management activities related to workers' compensation risks and dental insurance provided to county employees and their dependents. Because internal service funds predominantly benefit governmental rather than business-type functions, their assets and liabilities have been included with governmental activities in the government-wide financial statements.

The county's enterprise fund, Public Utility Fund, is a major fund and is reported separately in the government-wide and fund financial statements. The internal service funds are combined within the governmental activities in the government-wide statements and are presented separately in the fund financial statements.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the county. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the county's own programs. The accounting used to report fiduciary funds is much like that used to report proprietary funds. Please refer to the Table of Contents to locate these statements.

Notes to the Financial Statements – The notes to the financial statements provide additional information that is essential to the full understanding of the data provided in the government-wide and fund financial statements. Please refer to the Table of Contents to locate these notes.

Other information — In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules. Please refer to the Table of Contents to locate these statements and schedules.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the county, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$11.2 million at the close of the most recent fiscal year. For the DPCU School Department, assets exceeded liabilities and deferred inflows of resources by \$83.5 million at the close of the most recent fiscal year.

A large portion of the county's net position reflects its investment in capital assets (e.g. land, buildings, infrastructure, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The county uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. The same holds true for the DPCU School Department. A large portion of its net position reflects its investment in capital assets as described above.

Although the county's and the DPCU School Department's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets cannot be used to liquidate these liabilities.

Table 1a provides a summary of the county's and the DPCU School Department's net position for 2013, for their governmental activities as well as a comparison with the prior year. Table 1b provides a summary of the county's net position for 2013, for its business-type activities.

An additional portion of the county's net position, \$14 million, represents resources that are subject to external restrictions on how they may be used. In the DPCU School Department, \$2.5 million of net position are subject to external restrictions.

Table 2a shows the changes in net position for fiscal year 2013, and a comparison with the prior year for the county and the DPCU School Department for their governmental activities. Table 2b shows the changes in nets position for fiscal year 2013, and a comparison with the prior year for the county's business-type activities.

Expenses for Public Safety of \$6.7 million, consisting primarily of the law enforcement and jail operating cost, accounted for approximately 24 percent of the \$27.4 million total expenses for governmental activities. Of that \$27.4 million in governmental activities expenses, \$7.6 million was covered by direct charges to users of the services. A significant portion of those charges are for fees associated with the court system and ambulance service patient charges.

Financial Analysis of the Government's Funds

As noted earlier, the county and DPCU School Department use fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the county's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the county's and the DPCU School Department's financing requirements. In particular, unassigned fund balance may serve as a useful measure of net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the county's governmental funds reported combined ending fund balances of \$17.2 million. Approximately \$4.3 million of this total constitutes unassigned fund balance within the General Fund, which is available for appropriation at the government's discretion within certain legal constraints and purpose restrictions. The remainder of fund balance is restricted, committed, or assigned to indicate that it is available for spending only in certain limited instances. In the DPCU School Department's

governmental funds, combined ending fund balances were \$11.7 million. Approximately \$5.4 million of this total constitutes unassigned fund balance.

Financial Comparisons - Primary Government

The General Fund is the chief operating fund of the county. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$4.3 million, while total fund balance was \$4.9 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately 29 percent of total General Fund expenditures, while total fund balance represents 33 percent of that same amount.

The fund balance of the county's General Fund increased by \$102 thousand during the current fiscal year.

The Highway/Public Works Fund continues to hold its own in terms of funding the needs of the department. Expenditures and other uses exceeded revenues by \$18 thousand; however, the fund maintained an ending fund balance of \$1 million.

The General Debt Service Fund had a net decrease of \$737 thousand in fund balance.

Roane County's budgeting process is prescribed by *Tennessee Code Annotated*. Essentially the budget is the county's appropriations that are restricted by the amounts of anticipated revenues; therefore, the county's plans and desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity, then the appropriations can be adjusted accordingly.

Proprietary Funds. The financial statements of the Internal Service Funds reflect the operations of the county's dental and workers' compensation self-insured risk financing activities. These activities have been consolidated under the revenues and expenses for governmental activities on the government-wide financial statements.

Financial Comparison - DPCU School Department

The General Purpose School Fund is the chief operating fund of the DPCU School Department. At the end of the current fiscal year, unassigned fund balance of the General Purpose School Fund was \$5.4 million, while total fund balance reached \$8.3 million. As a measure of the General Purpose School Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately 11 percent of total General Purpose School Fund expenditures, while total fund balance represents 16 percent of that same amount.

Capital Assets

The county's investment in capital assets for its governmental activities as of June 30, 2013, totals \$17.9 million (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings and systems, improvements, equipment, roads, highways, and bridges. The DPCU School Department's investment in capital assets for its governmental activities as of June 30, 2013, totals \$76.5 million (net of

accumulated depreciation). The Notes to the Financial Statements provide additional information on capital assets activity for the year.

Debt Administration

At the end of the 2013 fiscal year, the county's governmental activities had total long-term debt outstanding of \$46.4 million. Of this amount, all is backed by the full faith and credit of the county. The county maintains an A2 rating for Moody's and an AA- rating for Standard and Poor's for general obligation debt. The county's business-type activities had long-term debt outstanding of \$3.7 million.

In addition to the debt noted above, county long-term obligations include compensated absences, landfill postclosure care costs, and other post-employment benefits. Additional information on the county's long-term obligations can be found in the Notes to the Financial Statements.

Interest and fiscal charges totaled seven percent of the total expenses for governmental activities.

Economic Factors and Next Year's Budgets and Rates

The unemployment rate for the county is currently 8.7 percent compared to the lower rate of 8.3 percent a year ago. The state's average unemployment rate is currently 8.5 percent and the national average is 7.6 percent. Economic trends in the region are consistent with national indices. All of these factors were considered in preparing the county's budget for the 2014 fiscal year. At the end of the 2013 fiscal year, unassigned fund balance in the General Fund was \$4.3 million. The county has budgeted to use \$1 million from this fund balance for fiscal year 2014.

Request for Information

This financial report is designed to provide a general overview of the county's finances for all those with an interest in the government's finances. For questions concerning any of the information provided in this report, please contact the Accounting and Budgeting Office at 200 East Race Street, Suite 1, Kingston, Tennessee 37763.

Roane County, Tennessee
Reconciliation of the Balance Sheet of Governmental Funds
to the Statement of Net Position
June 30, 2013

Amounts reported for governmental activities in the statement of net position (Exhibit A) are different because:

| Total fund balances - balance sheet - governmental funds (Exhibit C-1) | \$ 17,248,370 |
|---|------------------|
| (1) Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds. Add: land \$4,833,810 Add: construction in progress 97,000 Add: infrastructure net of accumulated depreciation 21,534,815 Add: building and improvements net of accumulated depreciation 12,798,394 Add: other capital assets net of accumulated depreciation 3,389,267 | 42,653,286 |
| (2) Internal service funds are used by management to charge the cost of workers' compensation and employee dental benefits to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. | 1,453,376 |
| (3) Long-term liabilities are not due and payable in the current period and therefore are not reported in the governmental funds. Less: other loans payable \$ (4,313,845)\$ Less: bonds payable (42,110,000) Add: deferred amount on refunding 557,588 Less: unamortized premium on debt (929,379) Less: compensated absences payable (317,175) Less: landfill closure/postclosure care costs (215,869) Less: other postemployment benefits liability (3,891,194) Less: accrued interest on bonds and other loans payable (267,924) | (51,487,798) |
| (4) Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the governmental funds. | 1,333,737 |
| Net position of governmental activities (Exhibit A) | \$ 11,200,971 |

Roane County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds to the
Statement of Activities
For the Year Ended June 30, 2013

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

| Net change in fund balances - total governmental funds (Exhibit C-3) | | | \$ 1,604,453 |
|--|--------|---|-----------------|
| (1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows: Add: capital assets purchased in the current period | \$ | 2,528,608 | |
| Less: current-year depreciation expense | _ | (2,688,151) | (159,543) |
| (2) Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Add: deferred delinquent property taxes and other deferred June 30, 2013 Less: deferred delinquent property taxes and other deferred June 30, 2012 | \$ | 1,333,737 (883,114) | 450,623 |
| (3) The issuance of long-term debt (e.g., bonds, notes, other loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the effect of these differences in the treatment of long-term debt and related items: Less: other loan proceeds | \$ | (385,910) | |
| Add: change in premium on debt issuances Add: principal payments on bonds Add: principal payments on other loans Less: change in deferred amount on refunding debt | Ф — | 261,909 2,900,000 294,372 (75,272) | 2,995,099 |
| (4) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. Change in accrued interest payable Change in compensated absences payable Change in landfill closure/postclosure care cost Change in other postemployment benefits liability | \$ | 11,869 19,022 19,504 (649,591) | (599,196) |
| (5) Internal service funds are used by management to charge the cost of workers' compensation and dental benefits to individual funds. The net revenue (expense) of certain activities of the internal service funds is reported | | | |
| with governmental activities in the statement of activities. | | | 113,600 |
| Change in net position of governmental activities (Exhibit B) | | | \$ 4,405,036 |

ROANE COUNTY, TENNESSEE NOTES TO THE FINANCIAL STATEMENTS For the Year Ended June 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Roane County's financial statements are presented in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments.

The following are the more significant accounting policies of Roane County:

A. Reporting Entity

Roane County is a public municipal corporation governed by an elected 15-member board. As required by GAAP, these financial statements present Roane County (the primary government) and its component units. The component units discussed below are included in the county's reporting entity because of the significance of their operational or financial relationships with the county.

Discretely Presented Component Units – The following entities meet the criteria for discretely presented component units of the county. They are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the county.

The Roane County School Department operates the public school system in the county, and the voters of Roane County elect its board. The School Department is fiscally dependent on the county because it may not issue debt, and its budget and property tax levy are subject to the County Commission's approval. The School Department's taxes are levied under the taxing authority of the county and are included as part of the county's total tax levy.

The Industrial Development Board of Roane County was organized to promote industrial development and provide additional job opportunities in Roane County and the surrounding counties in accordance with Title 7, Chapter 53, of *Tennessee Code Annotated*. The Industrial Development Board of Roane County is governed by a nine-member board of directors appointed by the Roane County Commission. During the year, Roane County provided \$387,250 to the Industrial Development Board to be applied toward operations of the board.

The Roane County Emergency Communications District provides a simplified means of securing emergency services through a uniform emergency number for the residents of Roane County, and the Roane County Commission appoints its governing body. The district is funded primarily through a

service charge levied on telephone services. Before the issuance of most debt instruments, the district must obtain the County Commission's approval.

The Roane County School Department does not issue separate financial statements from those of the county. Therefore, basic financial statements of the Roane County School Department are included in this report as listed in the table of contents. Complete financial statements of the Industrial Development Board of Roane County and the Roane County Emergency Communications District can be obtained from their administrative offices at the following addresses:

Administrative Offices:

Industrial Development Board of Roane County 1209 North Kentucky Street Kingston, TN 37763

Roane County Emergency Communications District P.O. Box 236 Rockwood, TN 37854

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. However, when applicable, interfund services provided and used between functions are not eliminated in the process of consolidation in the Statement of Activities. Governmental activities are normally supported by taxes and intergovernmental revenues. Business-type activities, which rely to a significant extent on fees and charges, are required to be reported separately from governmental activities in government-wide financial statements. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The Roane County School Department component unit only reports governmental activities in the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Roane County issues all debt for the discretely presented Roane County School Department. Net debt issues totaling \$385,910, were contributed by the county to the School Department during the year ended June 30, 2013.

Separate financial statements are provided for governmental funds, proprietary funds (internal service and enterprise), and fiduciary funds. The internal service funds are reported with the governmental activities in the government-wide financial statements, and the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and the major enterprise fund are reported as separate columns in the fund financial statements.

C. <u>Measurement Focus, Basis of Accounting, and Financial Statement</u> Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary funds and fiduciary funds financial statements, except for agency funds, which have no measurement focus. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund financial statements of Roane County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, deferred outflow of resources, liabilities, deferred inflow of resources, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. Roane County reports three proprietary funds: two internal service funds and one enterprise fund.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds. Major individual governmental funds and the major enterprise fund are reported as separate columns in the fund financial statements. All other governmental funds are aggregated into a single column on the fund financial statements. The internal service funds and the fiduciary funds in total are reported in single columns by fund type.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the county considers revenues other than grants to be available if they are collected within 30 days

after year-end. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met and the revenues are available. Roane County considers grants and similar revenues to be available if they are collected within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Principal and interest on long-term debt are recognized as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made early in the following year.

Property taxes for the period levied, in-lieu-of tax payments, sales taxes, interest, and miscellaneous taxes are all considered to be susceptible to accrual and have been recognized as revenues of the current period. Applicable business taxes, litigation taxes, state-shared excise taxes, fines, forfeitures, and penalties are not susceptible to accrual since they are not measurable (reasonably estimable). All other revenue items are considered to be measurable and available only when the county receives cash.

Proprietary funds and fiduciary funds financial statements are reported using the economic resources measurement focus, except for agency funds, which have no measurement focus, and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Roane County reports the following major governmental funds:

General Fund – This is the county's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Highway/Public Works Fund – This special revenue fund accounts for transactions of the county's Highway Department. Local and state gasoline/fuel taxes are the foundational revenues of this fund.

General Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Roane County reports the following major proprietary fund:

Public Utility Fund – This fund accounts for transactions related to the treatment of wastewater.

Additionally, Roane County reports the following fund types:

Capital Projects Funds – These funds are used to account for general capital expenditures of the county and for road construction and renovations of the county road system.

Private Purpose Trust Fund — The Endowment Fund is used to account for an endowment received by the county. The principal amount must remain intact while interest earned on the principal is to be expended for the benefit of scholarships for Roane County students.

Internal Service Funds – These funds, the Employee Insurance – Dental and the Workers' Compensation funds, are used to account for the county's self-insured dental and workers' compensation programs managed by the county for the primary government and the discretely presented School Department.

Agency Funds – These funds account for amounts collected in an agency capacity by the constitutional officers, local sales taxes received by the state to be forwarded to the various cities in Roane County, the city school system's share of educational revenues, restricted revenues held for the benefit of the Office of District Attorney General, and assets held in a custodial capacity for an industrial revolving loan program. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. They do, however, use the accrual basis of accounting to recognize receivables and payables.

The discretely presented Roane County School Department reports the following major governmental fund:

General Purpose School Fund – This fund is the primary operating fund for the School Department. It is used to account for general operations of the School Department.

Additionally, the Roane County School Department reports the following fund types:

Special Revenue Funds – These funds account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Fund – The Education Capital Projects fund is used to account for building construction and renovations of the School Department.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated

resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. The county has three proprietary funds, an enterprise fund used to account for wastewater operations and two internal service funds used to account for the employees' dental insurance and workers' compensation programs managed by the county for the primary government and the discretely presented School Department. Operating revenues and expenses generally result from providing services in connection with the funds' principal ongoing operations. The principal operating revenue of the county's enterprise fund is charges for services from users. expenses for the enterprise fund include salaries and depreciation of capital assets. The principal operating revenues of the county's internal service funds are self-insurance premiums. Operating expenses for the internal include dental and workers' compensation service funds administrative expenses, and excess risk workers' compensation insurance.

D. <u>Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance</u>

1. Deposits and Investments

For purposes of the Statement of Cash Flows, cash includes cash on deposit with the county trustee.

State statutes authorize the government to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposit accounts at state and federal chartered banks and savings and loan associations; repurchase agreements; the State Treasurer's Investment Pool; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county's own legally issued bonds or notes.

The county trustee maintains a cash and internal investment pool that is used by all funds and the discretely presented Roane County School Department. Each fund's portion of this pool is displayed on the balance sheets or statements of net position as Equity in Pooled Cash and Investments. Most income from these pooled investments is assigned to the General Debt Service, Rural Debt Service, and General Purpose School funds. Roane County and the School Department have adopted a policy of reporting U.S. Treasury obligations, U.S. agency obligations, and repurchase agreements with maturities of one year or less when purchased on the balance sheet at amortized cost. Certificates of deposit are reported at cost. Investments in the State Treasurer's Investment Pool are reported at fair value. The State Treasurer's Investment Pool is not registered with the Securities and

Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Accordingly, the pool qualifies as a 2a7-like pool and is reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. State statutes require the state treasurer to administer the pool under the same terms and conditions, including collateral requirements, as prescribed for other funds invested by the state treasurer. All other investments are reported at fair value. No investments required to be reported at fair value were held at the balance sheet date.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either due to/from other funds (i.e., the current portion of interfund loans) or advances to/from other funds (i.e., non-current portion of interfund loans). All other outstanding balances between funds are reported as due to/from other funds. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances. Advances between funds, as reported in the General Debt Service Fund financial statements are included in restricted fund balance.

All ambulance and property taxes receivables are shown with an allowance for uncollectibles. Ambulance receivables allowance for uncollectibles is based on historical collection data. The allowance for uncollectible property taxes is equal to 3.17 percent of total taxes levied.

Property taxes receivable are recognized as of the date an enforceable legal claim to the taxable property arises. This date is January 1 and is referred to as the lien date. However, revenues from property taxes are recognized in the period for which the taxes are levied, which is the ensuing fiscal year. Since the receivable is recognized before the period of revenue recognition, the entire amount of the receivable, less an estimated allowance for uncollectible taxes, is reported as a deferred inflow of resources as of June 30.

Property taxes receivable are also reported as of June 30 for the taxes that are levied, collected, and reported as revenue during the current fiscal year. These property taxes receivable are presented on the balance sheet as a deferred inflow of resources to reflect amounts not available as of June 30. Property taxes collected within 30 days of year-end are considered available and accrued. The allowance for uncollectible taxes represents the estimated amount of the receivable that will be filed in court for collection. Delinquent taxes filed in court

for collection are not included in taxes receivable since they are neither measurable nor available.

Property taxes are levied as of the first Monday in October. Taxes become delinquent and begin accumulating interest and penalty the following March 1. Suit must be filed in Chancery Court between the following February 1 to April 1 for any remaining unpaid taxes. Additional costs attach to delinquent taxes after a court suit has been filed.

Most payables are disaggregated on the face of the financial statements. Other current liabilities totaling \$144,999 reflected for the primary government on the Statement of Net Position represent amounts assessed by an insurance risk pool administrator. This liability is discussed in Note V.A., Risk Management. Other current liabilities totaling \$68,261 reflected for the discretely presented School Department on the Statement of Net Position represent monies refunded to the School Department in error by the Internal Revenue Service.

Retainage payable represents amounts withheld from payments made on construction contracts pending completion of the projects. These amounts are held by the county trustee as Equity in Pooled Cash and Investments.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as an expenditure when consumed rather than when purchased. Prepaids are offset in the nonspendable fund balance account in governmental funds.

4. Capital Assets

Governmental funds do not capitalize the cost of capital outlays; these funds report capital outlays as expenditures upon acquisition.

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the governmental and business-type columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and an estimated useful life exceeding five years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and infrastructure of the primary government and the discretely presented School Department are depreciated using the straight-line method over the following estimated useful lives:

| Assets | <u>Years</u> |
|----------------------------|--------------|
| Buildings and Improvements | 40 |
| Other Capital Assets | 5 - 10 |
| Infrastucture | 10 - 100 |

5. <u>Deferred Outflows/Inflows of Resources</u>

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has items that qualify for reporting in this category. Accordingly, the items are reported in the government-wide Statement of Net Position and the governmental funds balance sheet. These revenues are from the following sources: current and delinquent property taxes and various receivables for revenues, which do not meet the availability criteria in governmental funds. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

6. <u>Compensated Absences</u>

It is the county and School Department's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since Roane County does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide statements for the county and the discretely presented School Department. A liability for vacation pay is reported in governmental funds only if amounts have matured, for example, as a result of employee resignations and retirements.

7. <u>Long-term Obligations</u>

In the government-wide financial statements and the proprietary fund type in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type Statement of Net Position. Debt premiums and discounts are deferred and amortized over the life of the new debt using the straight-line method. Debt issuance costs are expensed in the period incurred. In refunding transactions, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the refunded debt or the life of the new debt issued, whichever is shorter.

In the fund financial statements, governmental funds recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Only the matured portion (the portion that has come due for payment) of long-term indebtedness, including bonds payable, is recognized as a liability and expenditure in the governmental fund financial statements. Liabilities and expenditures for other long-term obligations, including compensated absences, other postemployment benefits, and landfill closure/postclosure care costs, are recognized to the extent that the liabilities have matured (come due for payment) each period.

8. Net Position and Fund Balance

In the government-wide financial statements and the proprietary funds in the fund financial statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net position that does not meet the definition of restricted or net investment in capital assets.

As of June 30, 2013, Roane County had \$22,039,119 in outstanding debt for capital purposes of other entities (schools of \$15,843,845 and industrial purposes of \$6,195,274). In accordance with state statutes, certain county school debt proceeds must be shared with other public school systems in the county (City of Oak Ridge School System) based on an average daily attendance proration. This debt is a liability of Roane County; but the capital assets acquired are reported in the financial statements of the School Department and the City of Oak Ridge School System. Therefore, Roane County has incurred a liability, significantly decreasing its unrestricted net position with no corresponding increase in the county's capital assets.

It is the county's policy that unrestricted amounts would be reduced first followed by restricted amounts when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. Also, it is the county's policy that unassigned amounts would be reduced first, followed by assigned amounts, and then committed amounts when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications could be used.

In the fund financial statements, governmental funds report fund balance in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in these funds can be spent. These classifications may consist of the following: Nonspendable Fund Balance – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – includes amounts that have constraints placed on the use of the resources that are either (a) externally imposed by creditors, grantors, contributors or laws and regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the County Commission, the county's highest level of decision-making authority and the Board of Education, the School Department's highest level of decision-making authority, and shall remain binding unless removed in the same manner.

Assigned Fund Balance – includes amounts that are constrained by the county's intent to be used for specific purposes, but are neither restricted nor committed (excluding stabilization arrangements). The County Commission has by resolution authorized the county's Budget/Finance Committee to make assignments for the general government. The Board of Education makes assignments for the School Department. Assigned fund balance in the General Fund consists of amounts assigned for encumbrances. Assigned fund balance is the School Department's General Purpose School Fund (\$877,761) consists primarily of assignments for encumbrances (\$127,091) and other postemployment benefits (\$726,022).

Unassigned Fund Balance – the residual classification of the General and General Purpose School funds. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General and General Purpose School funds.

9. Optimal Fund Balance Policy

The county does not have a minimum fund balance policy; however, the County Commission and Board of Education have adopted policies establishing optimal fund balances to provide management with appropriate guidelines and direction to assist in making sound decisions related to managing the fund balance of certain governmental funds. The following optimal fund balance policies apply to the sum of restricted, committed, assigned, and unassigned fund balance, with the exception of the General Purpose School Fund for which the policy applies only to unassigned fund balance.

Primary Government

General Fund – 35 to 45 percent of current-year appropriations

Highway/Public Works Fund – seven to 15 percent of current-year appropriations

Debt Service Funds – the county will typically have one year of future payments as fund balance

Discretely Presented Roane County School Department

General Purpose School Fund – seven to ten percent of operating expenditures

Central Cafeteria Fund – 15 to 30 percent of operating expenditures

School Transportation Fund - ten to 20 percent of operating expenditures

Extended School Program Fund -15 to 40 percent of operating expenditures

10. Restatements

A restatement of \$930,863 is reflected for governmental activities in the government-wide financial statements. This adjustment was recognized due to the implementation of Governmental Accounting Standards Board Statement No. 65. A restatement is also reflected totaling \$41,103 for governmental activities and governmental funds to reclassify the District Attorney General Fund from a special revenue fund as an agency fund.

11. <u>Prior-period Adjustment</u>

A prior-period adjustment of \$325,880 is reflected for business-type activities in the government-wide financial statements. This adjustment was recognized due to the county's determination that sewer pumps installed on residential properties are not property of the county and should not have been capitalized.

II. <u>RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS</u>

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide Statement of Net Position

Primary Government

Exhibit C-2 includes explanations of the nature of individual elements of items required to reconcile the balance sheet of governmental funds with the government-wide Statement of Net Position.

Discretely Presented Roane County School Department

Exhibit K-3 includes explanations of the nature of individual elements of items required to reconcile the balance sheet of governmental funds with the government-wide Statement of Net Position.

B. Explanation of certain differences between the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities

Primary Government

Exhibit C-4 includes explanations of the nature of individual elements of items required to reconcile the net change in fund balances — total governmental funds with the change in net position of governmental activities reported in the government-wide Statement of Activities.

Discretely Presented Roane County School Department

Exhibit K-5 includes explanations of the nature of individual elements of items required to reconcile the net change in fund balances — total governmental funds with the change in net position of governmental activities reported in the government-wide Statement of Activities.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

In prior years, the budgetary statements for the General Fund and major special revenue funds were presented as required supplementary information in the financial statements of its external financial report. Effective for the year ended June 30, 2013, these budgetary statements are presented as part of the basic financial statements. This change in presentation was done to be consistent in the presentation of the information for both municipal and county governments in Tennessee.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for all governmental funds except the Constitutional Officers - Fees Fund (special revenue fund), which is not budgeted, and the Highway Capital Projects Fund, which adopts project length budgets. All annual appropriations lapse at fiscal year end.

The county is required by state statute to adopt annual budgets. Annual budgets are prepared on the basis in which current available funds must be sufficient to meet current expenditures. Expenditures and encumbrances may not legally exceed appropriations authorized by the County Commission and any authorized revisions. Unencumbered appropriations lapse at the end of each fiscal year.

The budgetary level of control is at the major category level established by the County Uniform Chart of Accounts, as prescribed by the Comptroller of the Treasury of the State of Tennessee. Major categories are at the department level (examples of General Fund major categories: County Commission, Board of Equalization, County Executive, County Attorney, etc.). Management may make revisions within major categories, but only the County Commission may transfer appropriations between major categories. During the year, several supplementary appropriations were necessary.

The county's budgetary basis of accounting is consistent with GAAP, except instances in which encumbrances are treated as budgeted expenditures. The difference between the budgetary basis and GAAP basis is presented on the face of each budgetary schedule.

IV. <u>DETAILED NOTES ON ALL FUNDS</u>

A. Deposits and Investments

Roane County and the Roane County School Department participate in an internal cash and investment pool through the Office of Trustee. The county trustee is the treasurer of the county and in this capacity is responsible for receiving, disbursing, and investing most county funds. Each fund's portion of this pool is displayed on the balance sheets or statements of net position as Equity in Pooled Cash and Investments. Cash reflected on the balance sheets or statements of net position represents nonpooled amounts held separately by individual funds.

Deposits

Legal Provisions. All deposits with financial institutions must be secured by one of two methods. One method involves financial institutions that participate in the bank collateral pool administered by the state treasurer. Participating banks determine the aggregate balance of their public fund accounts for the State of Tennessee and its political subdivisions. The amount of collateral required to secure these public deposits must equal at least 105 percent of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to

protect their public fund accounts are pledged to the state treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

For deposits with financial institutions that do not participate in the bank collateral pool, state statutes require that all deposits be collateralized with collateral whose fair value is equal to 105 percent of the uninsured amount of the deposits. The collateral must be placed by the depository bank in an escrow account in a second bank for the benefit of the county.

Investments

Legal Provisions. Counties are authorized to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposits at state and federal chartered banks and savings and loans associations; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county's own legally issued bonds or notes. These investments may not have a maturity greater than two years. The county may make investments with longer maturities if various restrictions set out in state law are followed. Counties are also authorized to make investments in the State Treasurer's Investment Pool and in repurchase Repurchase agreements must be approved by the state Comptroller's Office and executed in accordance with procedures established by the State Funding Board. Securities purchased under a repurchase agreement must be obligations of the U.S. government or obligations guaranteed by the U.S. government or any of its agencies. When repurchase agreements are executed, the purchase of the securities must be priced at least two percent below the fair value of the securities on the day of purchase.

Investment Balances. As of June 30, 2013, Roane County had the following investments carried at fair value. All investments are in the State Treasurer's Investment Pool. Separate disclosures concerning pooled investments cannot be made for Roane County and the discretely presented Roane County School Department since both pool their deposits and investments through the county trustee.

| | Weighted | | | |
|-----------------------------------|-----------------|------------|--|--|
| | Average | Fair | | |
| Investment | Maturity (days) | Value | | |
| | | | | |
| State Treasurer's Investment Pool | 11 to 138 \$ | 25.853.298 | | |

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State statutes limit the maturities of certain investments as previously disclosed. Roane County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes limit the ratings of certain investments as previously explained. Roane County has no investment policy that would further limit its investment choices. As of June 30, 2013, Roane County's investment in the State Treasurer's Investment Pool was unrated.

B. Notes Receivable

Notes receivable consists of industrial loans totaling \$635,875 in the Community Development - Agency Fund due from local businesses.

C. <u>Capital Assets</u>

Capital assets activity for the year ended June 30, 2013, was as follows:

Primary Government

Governmental Activities:

| | Balance | | | | Balance |
|-----------------------------|------------------|-----------------|--------------------|-----|------------|
| | 7-1-12 | Increases | Decreases | | 6-30-13 |

^{*} Decreases include amounts for two school buildings that were sold during the year, which had carrying values totaling \$3,152,146. Both schools were replaced with new schools funded by the Tennessee Valley Authority funding agreement discussed in Note IV.I., Funding Agreement.

Depreciation expense was charged to functions of the discretely presented Roane County School Department as follows:

Governmental Activities:

| Support Services | \$ 2,489,201 |
|---|--------------|
| Operation of Non-Instructional Services | 42,446 |
| Total Depreciation Expense - | |
| Governmental Activities | \$ 2,531,647 |

D. <u>Construction Commitments</u>

At June 30, 2013, the primary government had uncompleted construction projects of approximately \$80,380 in the General Capital Projects Fund. Funding has been received for these future expenditures.

At June 30, 2013, the School Department had uncompleted construction projects of approximately \$324,368 in the Education Capital Projects Fund. Funding has been received for these future expenditures.

E. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2013, was as follows:

Due to/from Other Funds:

| Receivable Fund | Payable Fund | Amount |
|---|-----------------------|--------------|
| Primary Government: | | |
| General | Nonmajor governmental | \$ 14,885 |
| Highway/Public Works | General | 5,395 |
| " | Nonmajor governmental | 14,170 |
| Internal Service | General | 149,154 |
| " | Highway/Public Works | 17,931 |
| " | Nonmajor governmental | 31,778 |
| General | Internal Service | 1,071 |
| Discretely Presented School Department: | | |
| General Purpose School | Nonmajor governmental | 26,030 |

These balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

Interfund Transfers:

Interfund transfers for the year ended June 30, 2013, consisted of the following amounts:

Primary Government

| | Transfers In | | | | | | | | |
|-----------------------------|--------------|---------|----|---------|----|--------------|--|--|--|
| | | General | | | | | | | |
| | | | | Debt | | Nonmajor | | | |
| | | General | | Service | | Governmental | | | |
| Transfers Out | | Fund | | Fund | | Funds | | | |
| | | | | | | | | | |
| General Fund | \$ | 0 | \$ | 0 | \$ | 589,418 | | | |
| Highway/Public Works Fund | | 0 | | 130,894 | | 600,000 | | | |
| Nonmajor governmental funds | | 0 | | 0 | | 400,000 | | | |
| Internal service funds | | 20,000 | | 0 | | 0 | | | |
| | | | | | | _ | | | |
| Total | \$ | 20,000 | \$ | 130,894 | \$ | 1,589,418 | | | |

Discretely Presented Roane County School Department

| | _ | Transfers In | | | | | |
|-----------------------------|----|--------------|--------------|----------|--|--|--|
| | | General | | | | | |
| | | Purpose | | Nonmajor | | | |
| | | School | Governmental | | | | |
| Transfers Out | | Fund | | Funds | | | |
| | | | | | | | |
| General Purpose School Fund | \$ | 0 | \$ | 170,000 | | | |
| Nonmajor governmental funds | | 25,962 | | 408,112 | | | |
| | | | | _ | | | |
| Total | \$ | 25,962 | \$ | 578,112 | | | |

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

F. <u>Long-term Obligations</u>

Primary Government

General Obligation Bonds, Notes, and Other Loans

Roane county issues general obligation bonds and other loans to provide funds for the acquisition and construction of major capital facilities for the primary government and the discretely presented School Department. In addition, general obligation bonds and other loans have been issued to refund other general obligation bonds and loans. Capital outlay notes are also

issued to fund capital facilities and other capital outlay purchases, such as equipment.

General obligation bonds and other loans are direct obligations and pledge the full faith and credit of the government. General obligation bonds and other loans outstanding were issued for original terms of up to 25 years for bonds and up to 17 years for other loans. Repayment terms are generally structured with increasing amounts of principal maturing as interest requirements decrease over the term of the debt. All bonds and other loans included in long-term debt as of June 30, 2013, will be retired from the county's debt service funds.

General obligation bonds and other loans outstanding as of June 30, 2013, for governmental activities are as follows:

| | | | Original | |
|---|------------|-------------|------------|-----------------|
| | Interest | Final | Amount | Balance |
| Type | Rate | Maturity | of Issue | 6-30-13 |
| | | | | |
| General Obligation Bonds | 2 to 5 | % 6-1-25 \$ | 5,881,503 | \$ 3,986,582 |
| Refunding Bonds | 2 to 5 | 6-1-33 | 26,823,497 | 23,168,418 |
| Rural School Bonds | 2 to 3.5 | 6-30-20 | 1,325,000 | 910,000 |
| Rural School Refunding Bonds | 2 to 5 | 5-1-22 | 21,695,000 | 14,045,000 |
| Other Loans - Public Building Authorities | 1.6 to 6 | 6 - 1 - 27 | 6,975,000 | 3,425,000 |
| Other Loans - Energy Efficient Schools | 0 | 3-1-23 | 944,127 | 888,845 |

Roane County has entered into various loan agreements with Public Building Authorities (PBAs) to finance various capital projects for the county and the discretely presented Roane County School Department. Under the loan agreements, the PBAs issued bonds and made the proceeds available for loan to Roane County. The following table summarizes loan agreements (excluding the energy efficient loans) outstanding at June 30, 2013:

| Description | Original Amount of Loan Agreement | Outstanding Principal 6-30-13 | Interest Type | Interest Rate as of 6-30-13 | | | | | | |
|---|--|-------------------------------------|------------------|--------------------------------------|--|--|--|--|--|--|
| Sevier County Public | | | | | | | | | | |
| Building Authority (Series B-3- | <u>-A)</u> | | | | | | | | | |
| Industrial Park | | | | | | | | | | |
| Refunding | \$ 3,640,000 | \$ 753,003 | Fixed | 1.6 to 5.85 % | | | | | | |
| Industrial Park - Land | 835,000 | 171,997 | Fixed | 1.6 to 5.85 | | | | | | |
| Blount County Public Building Authority (Series B-13-A) | | | | | | | | | | |

Discretely Presented Roane County School Department

Changes in Long-term Obligations

Long-term obligation activity for the discretely presented Roane County School Department for the year ended June 30, 2013, for governmental activities was as follows:

| | | Other |
|-----------------------------|---------------|----------------|
| | Compensated | Postemployment |
| | Absences | Benefits |
| | | _ |
| Balance, July 1, 2012 | \$ 135,995 | \$ 4,911,866 |
| Additions | 191,967 | 1,755,921 |
| Reductions | (176,620) | (675,079) |
| | | _ |
| Balance, June 30, 2013 | \$ 151,342 | \$ 5,992,708 |
| | | |
| Balance Due Within One Year | \$ 143,775 | 8 0 |
| | • | · |

Analysis of Noncurrent Liabilities Presented on Exhibit A:

| Total Noncurrent Liabilities, June 30, 2013 | \$ 6,144,050 |
|---|-----------------|
| Less: Balance Due Within One Year | (143,775) |
| | |
| Noncurrent Liabilities - Due in | |
| More Than One Year - Exhibit A | \$ 6,000,275 |

Compensated absences and other postemployment benefits will be paid from the employing funds, primarily the General Purpose School and School Federal Projects funds.

G. On-Behalf Payments - Discretely Presented Roane County School Department

The State of Tennessee pays health insurance premiums for retired teachers on-behalf of the Roane County School Department. These payments are made by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan. Both of these plans are administered by the State of Tennessee and reported in the state's Comprehensive Annual Financial Report. Payments by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan for the year ended June 30, 2013, were \$242,032 and \$70,715, respectively. The School Department has recognized these on-behalf payments as revenues and expenditures in the General Purpose School Fund.

H. <u>Donor-restricted Endowments</u>

The county accounts for an endowment totaling \$20,000 in a private-purpose trust fund, the Endowment Fund. The principal amount must remain intact while interest earned on the principal will be expended to county residents awarded educational scholarships. During the year ended June 30, 2013, interest earned totaled \$26.

I. Funding Agreement

On April 23, 2010, Roane County entered into a funding agreement with the Tennessee Valley Authority (TVA) for \$32 million related to a coal ash spill. TVA has agreed to provide funding for a series of school capital projects known as the Roane County School Facilities Plan as approved by the Roane County Economic Development Foundation. The amended agreement expires during the year ending June 30, 2014. The Education Capital Projects Fund is being used to account for these projects. As of June 30, 2013, the county had received a total of \$30,822,442 from TVA as part of this funding agreement. Of the total, the county received \$2,978,826 during the year ended June 30, 2013.

V. OTHER INFORMATION

A. Risk Management

Roane County has chosen to establish two self-insurance funds for risks associated with the employees' dental insurance plan and workers' compensation claims. The self-insurance funds are accounted for as internal service funds where assets are set aside for claim settlements. The county retains the risk of loss to a limit of \$450,000 per occurrence and approximately \$3 million for all claims in any plan year for workers' compensation coverage. The county has obtained a stop/loss commercial insurance policy to cover claims beyond these limits.

All full-time employees of the primary government and the Roane County School Department are eligible to participate in the dental program. A premium charge for dental and workers' compensation coverage is allocated to each fund that accounts for employees. This charge is based on actuarial estimates of the amounts needed to pay prior- and current-year claims and to establish a reserve for catastrophic losses. Reserves of \$435,481 and \$1,017,895 existed in the Employee Insurance – Dental and Workers' Compensation funds, respectively at June 30, 2013. Liabilities of these funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. The self-insurance funds establish claim liabilities based on estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not liabilities include reported. Claims incremental claim expenditures/expenses, if any. In addition, estimated recoveries, if any, on settled claims have been deducted from the liability for unpaid claims. The process used to compute claims liabilities does not necessarily result in an exact amount. Changes in the balance of claims liabilities during the past two fiscal years are as follows:

Employee Insurance - Dental

| | Beginning | | | |
|-----------|---------------|---------------|--------------------|------------|
| | of Fiscal | Current-year | | Balance at |
| | Year | Claims and | | Fiscal |
| | Liability | Estimates | Payments | Year-end |
| | | | | _ |
| 2011-2012 | \$ 0 | \$ 448,213 | \$ (448,213) \$ | 0 |
| 2012-2013 | 0 | 465,591 | (465,591) | 0 |

Workers' Compensation

| | | Beginning | | | |
|-----------|----|-----------|---------------|--------------------|------------|
| | | of Fiscal | Current-year | | Balance at |
| | | Year | Claims and | | Fiscal |
| | _ | Liability | Estimates | Payments | Year-end |
| | _ | | | | |
| 2011-2012 | \$ | 294,440 | \$ 629,157 | \$ (742,768) \$ | 180,829 |
| 2012-2013 | | 180,829 | 311,161 | (292,923) | 199,067 |

Roane County participates in the Local Government Group Insurance Fund (LGGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local governments and quasi-governmental entities that was established for the primary purpose of providing services for or on behalf of state and local governments. In accordance with Section 8-27-207, *Tennessee Code Annotated (TCA)*, all local governments and quasi-governmental entities described above are eligible to participate. The LGGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by this fund. The state statute provides for the LGGIF to be self-sustaining through member premiums.

The discretely presented Roane County School Department participates in the Local Education Group Insurance Fund (LEGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local education agencies. In accordance with Section 8-27-301, TCA, all local education agencies are eligible to participate. The LEGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by this fund. Section 8-27-303, TCA, provides for the LEGIF to be self-sustaining through member premiums.

Roane County and several other counties, cities, and local government entities were members of the Local Government Insurance Cooperative (LOGIC) for their workers' compensation insurance for one or more policy years in 1996-97, 1997-98, and 1999-2000. LOGIC obtained its excess coverage insurance from Reliance Insurance Company for claims that exceeded specific amounts. Reliance Insurance Company is now insolvent and is being liquidated in the State of Pennsylvania. The insolvency of Reliance Insurance Company has left the LOGIC members exposed to significant claim liabilities for their policy years. Consequently, the LOGIC board of directors assessed its members certain amounts for each member's share of outstanding claims unpaid by Reliance Insurance Company. Roane County's share of this assessment as of June 30, 2013, totaled \$144,999. The county has contested these assessments for the past several years and has not made payments to LOGIC. These amounts are reflected as current liabilities in the General Fund.

The county and the School Department continue to carry commercial insurance for other risks of loss, including general liability, property, casualty, and environmental. Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years.

B. Accounting Changes

Provisions of Governmental Accounting Standards Board (GASB) Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements; Statement No. 61, The Financial Reporting Entity: Omnibus (an amendment of GASB Statements No. 14 and No. 34); Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements; and Statement No. 63, Reporting Deferred Outflows, Deferred Inflows and Net Position became effective for the year ended June 30, 2013. Roane County early implemented Statement No. 65, Items Previously Reported as Assets and Liabilities and Statement No. 66, Technical Corrections-2012-an amendment of GASB Statements No. 10 and No. 62, which have an effective date of June 30, 2014.

GASB Statement No. 60 provides accounting and financial reporting guidance related to service concession arrangements (SCAs), which are a type of public-private or public-public partnership. The standard establishes criteria for determining whether a SCA exists, how to account for SCAs, and requires certain disclosures associated with a SCA.

GASB Statement No. 61 amends Statements No. 14 and No. 34 and modifies certain requirements for inclusion of component units in the financial reporting entity to ensure that the reporting entity includes only organizations for which the elected officials are financially accountable or that are determined by the government to be misleading to exclude. Statement No. 61 also clarifies the criteria for blending component units and presenting business-type component units.

GASB Statement No. 62 incorporates into GASB's literature the provisions in Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the American Institute of Certified Public Accountants' Committee on Accounting Procedure issued on or before November 30, 1989, that do not conflict with or contradict GASB pronouncements. The option to use subsequent FASB guidance has been removed.

GASB Statement No. 63 provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources that were introduced and defined by Concepts Statement No. 4, *Elements of Financial Statements*. Previous financial reporting standards did not include guidance for reporting those financial statement elements, which are distinct from assets and

liabilities. In addition, the previous Statement of Net Assets was renamed to a Statement of Financial Position.

GASB Statement No. 65 establishes accounting and financial reporting standards that reclassifies, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

GASB Statement No. 66 resolves conflicting guidance by removing the provision that limits fund based reporting of an entity's risk financing activities to the General Fund and the internal service fund type. Under Statement No. 66 decisions about fund type classifications are based on the nature of the activity to be reported as required by Statements No. 54 and No. 34. This statement also modifies guidance on operating lease payments, purchased loans, and servicing fees related to mortgage loans.

C. Contingent Liabilities

The county is involved in several pending lawsuits. Based on letters from attorneys, management believes that the potential claims against the county not covered by insurance resulting from such litigation would not materially affect the county's financial statements.

D. Changes in Administration

On August 31, 2012, Teresa Kirkham left the Office of Property Assessor and was succeeded by David Morgan, and Thomas Hamby left the Office of Road Superintendent and was succeeded by Dennis Ferguson.

E. <u>Landfill Closure/Postclosure Care Costs</u>

Roane County has an active permit on file with the state Department of Environment and Conservation for a sanitary landfill. The county has provided financial assurances for estimated postclosure liabilities as required by the State of Tennessee. These financial assurances are on file with the Department of Environment and Conservation.

State and federal laws and regulations require the county to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the county reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. Roane County closed its sanitary landfill in 1998. The \$215,869 reported as postclosure care liability as June 30, 2013, represents amounts based on what it would cost to perform all postclosure care in 2013. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

F. Joint Venture

Roane County entered into an agreement with the counties of Cumberland and Morgan, Tennessee, to establish an Industrial Development Board to purchase land for the development of a joint industrial park. Cumberland, Morgan, and Roane counties jointly own the park. The agreement established a nine-member board with each county appointing three members and having responsibility for one-third of the entity's funding. Roane County issued loans for \$1,750,000 and \$750,000 on October 18, 2007, and June 15, 2010, respectively. The proceeds of these loans were contributed to the board.

G. Jointly Governed Organization

The County Commission is responsible for appointing three members to the board of directors of the Roane Alliance, Inc. The total number of board members fluctuates from 29 to 48 members. The remaining members are appointed by other entities or are ex-officio from various organizations. The county's accountability for this organization does not extend beyond making these three appointments.

H. Retirement Commitments

Plan Description

Employees of Roane County are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979, become vested after five years of service, and members joining prior to July 1, 1979, were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37 of Tennessee Code Annotated. State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Roane County participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP.

That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

Roane County requires employees to contribute five percent of their earnable compensation to the plan. The county is required to contribute at an actuarially determined rate; the rate for the fiscal year ended June 30, 2013, was 9.14 percent of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for the county is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ended June 30, 2013, Roane County's annual pension cost of \$1,563,183 to TCRS was equal to the county's required and actual The required contribution was determined as part of the contributions. July 1, 2011, actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected three percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected postretirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. The county's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011, was one year. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Trend Information

| Fiscal Year <u>Ended</u> | Annual Pension <u>Cost (APC)</u> | Percentage of APC <u>Contributed</u> | Net Pension Obligation |
|--------------------------------|--|--|------------------------------|
| 6-30-13 6-30-12 | \$1,563,183 | 100% | \$0 |
| 6-30-12 | $1,584,229 \\ 1,520,651$ | 100 100 | $0 \\ 0$ |

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 98.31 percent funded. The actuarial accrued liability for benefits was \$40.48 million, and the actuarial value of assets was \$39.79 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$.68 million. The covered payroll (annual payroll of active employees covered by the plan) was \$16.43 million, and the ratio of the UAAL to the covered payroll was 4.17 percent.

The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

SCHOOL TEACHERS

Plan Description

The Roane County School Department contributes to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEEPP), a cost-sharing multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan on or after July 1, 1979, are vested after five years of service. Members joining prior to July 1, 1979, are vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37 of Tennessee Code Annotated. State statutes are amended by the Tennessee General Assembly. A cost of living adjustment (COLA) is provided to retirees each July based on the percentage change in the Consumer Price Index (CPI) during the previous calendar year. No COLA is granted if the CPI increases less than one-half percent. The annual COLA is capped at three percent.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the SETHEEPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at www.tn.gov/treasury/tcrs/Schools.

Funding Policy

Most teachers are required by state statute to contribute five percent of their salaries to the plan. The employer contribution rate for the School Department is established at an actuarially determined rate. The employer rate for the fiscal year ended June 30, 2013, was 8.88 percent of annual covered payroll. The employer contribution requirement for the School Department is established and may be amended by the TCRS Board of Trustees. The employer's contributions to TCRS for the years ended June 30, 2013, 2012, and 2011, were \$2,450,461, \$2,514,014, and \$2,432,739, respectively, equal to the required contributions for each year.

I. Other Postemployment Benefits (OPEB)

Plan Description

Roane County and the Roane County School Department participate in the state-administered Local Education Group Insurance Plan and Local Government Insurance Plan for healthcare benefits. purposes, the plans are agent multiple-employer defined benefit OPEB plans. Benefits are established and amended by an insurance committee created by Section 8-27-302, Tennessee Code Annotated (TCA), for local education employees and Section 8-27-207, TCA, for local governments. Prior to reaching the age of 65, all members have the option of choosing between the standard or partnership preferred provider organization (PPO) plan for healthcare benefits. Subsequent to age 65, members who are also in the state's retirement system may participate in a state-administered Medicare Supplement Plan that does not include pharmacy. The plans are reported in the State of Tennessee Comprehensive Annual Financial The CAFR is available on the state's website at Report (CAFR). http://tn.gov/finance/act/cafr.html.

Funding Policy

The premium requirements of plan members are established and may be amended by the insurance committee. The plans are self-insured and financed on a pay-as-you-go basis with the risk shared equally among the participants. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. The employers in each plan develop a contribution policy in terms of subsidizing active employees or retired employees' premiums since the committee is not prescriptive on that issue. The state does not provide a subsidy for local

government participants; however, the state does provide a partial subsidy to Local Education Agency pre-65 teachers and a full subsidy based on years of service for post-65 teachers in the Medicare Supplement Plan. County retirees have the opportunity to maintain the same level of medical benefits they had as an active employee with the county paying the same share as active employees until they reach age 65. During the year ended June 30, 2013, Roane County contributed \$92,437 for postemployment benefits. The required contribution rate for retired teachers ranges from 20 to 46 percent based on classification and years of service. During the year ended June 30, 2013, the discretely presented School Department contributed \$675,079 for postemployment benefits.

Annual OPEB Cost and Net OPEB Obligation

| 6-30-13 | n . | 1,755,921 | 38 | 5,992,708 |
| | | | | |

Funded Status and Funding Progress

The funded status of the plan as of July 1, 2011, was as follows:

| | Local | Local | |
|---|-----------------|------------------|--|
| | Government | Education | |
| | Group | Group | |
| | Plan | Plan | |
| | | | |
| Actuarial valuation date | 7 - 1 - 11 | 7-1-11 | |
| Actuarial accrued liability (AAL) | \$ 4,950,000 | \$ 14,355,000 | |
| Actuarial value of plan assets | \$ 0 | \$ 0 | |
| Unfunded actuarial accrued liability (UAAL) | \$ 4,950,000 | \$ 14,355,000 | |
| Actuarial value of assets as a % of the AAL | 0% | 0% | |
| Covered payroll (active plan members) | \$ 9,669,107 | \$ 33,569,800 | |
| UAAL as a % of covered payroll | 51% | 43% | |

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2011, actuarial valuation for the Local Government Plan and Local Education Plan, the projected unit credit actuarial cost method was used and the actuarial assumptions included a four percent investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate of 8.75 percent for fiscal year 2013. The trend will decrease to 8.25 percent in fiscal year 2014 and then be reduced by decrements to an ultimate rate of five percent by fiscal year 2021. Both rates include a 2.5 percent inflation assumption. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis over a 30-year period beginning with July 1, 2007.

J. Office of Central Accounting

Roane County operates under provisions of the Fiscal Control Acts of 1957. These acts provide for a central system of accounting, budgeting, and purchasing covering all funds administered by the county executive, road superintendent, and director of schools. These funds are maintained in the Office of Central Accounting, Budgeting, and Purchasing under the supervision of the director of accounts and budgets.

K. Purchasing Laws

Purchasing procedures for the Offices of County Executive and Road Superintendent are governed by the County Purchasing Law of 1957, Section 5-14-101, et seq., *Tennessee Code Annotated (TCA)*. Purchasing procedures for the Road Department are also governed by provisions of the Uniform Road Law, Section 54-7-113, *TCA*. These acts provide for a purchasing agent and require competitive bids on all purchases exceeding \$10,000.

Chapter 477, Private Acts of 1933, and the County Purchasing Law of 1957 provide for the School Department purchases to be made by the purchasing agent and for bids to be solicited on purchases exceeding \$10,000.

VI. OTHER NOTES – DISCRETELY PRESENTED ROANE COUNTY EMERGENCY COMMUNICATIONS DISTRICT

A. Description of Organization

The Roane County Emergency Communications District was established January 1, 1991, pursuant to the provisions of Chapter 867 of the Public Acts of 1984 of the State of Tennessee. The district is responsible for the installation and maintenance of the emergency communications network of Roane County, Tennessee (Enhanced 911 Service).

The district is considered a component unit of Roane County, Tennessee, because the Roane County Board of Commissioners appoints all of the district's Board of Directors and must approve any debt issued by the district.

B. Summary of Significant Accounting Policies

Basis of Accounting

The district's financial statements are reported using the economic resources measurement focus and accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The statement of revenue, expenses and change in net position presents increases (revenue) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenue is recognized in the period in which it is earned while expenses are recognized in the period in which the liability is incurred.

Operating revenue is revenue that is generated from the primary operations of the district. All other revenue is reported as nonoperating revenue. Operating expenses are those expenses that are essential to the primary operations of the district. All other expenses are reported as nonoperating expenses.

GASB Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments establishes standards for external financial reporting for state and local governments and requires that resources be classified for accounting and reporting purposes into the following three net position groups:

<u>Net investment in capital assets</u>: This category includes capital assets, net of accumulated depreciation and the related debt. Net investment in capital assets at June 30, 2013, has been calculated as follows:

| Capital Assets | \$ 1,874,103 |
|-------------------------------------|-----------------|
| Accumulated Depreciation | (1,043,168) |
| Principal Balance on Long-term Debt | (82,858) |
| | |
| Total | \$ 748.077 |

<u>Restricted</u>: This category includes net position whose use is subject to externally imposed stipulations that can be fulfilled by actions of the district pursuant to those stipulations or that expire by the passage of time. The district had no restricted net position as of June 30, 2013.

<u>Unrestricted</u>: This category includes net position that is not subject to externally imposed stipulations and does not meet the definition of "restricted" or "net investment in capital assets." Unrestricted net position may be designated for specific purposes by action of management or the Board of Directors or may otherwise be limited by contractual agreements with outside parties.

Accounts Receivable

Accounts receivable, which are deemed uncollectible based upon a periodic review of the accounts, are charged to revenue. At June 30, 2013, no allowance for uncollectible accounts was considered necessary.

Capital Assets

Capital assets, which include property and equipment, are recorded at cost. Capital assets are defined by the district as assets with an initial cost of \$1,500 or more. Depreciation is computed using the straight-line method over the estimated useful lives, which ranges from five to 40 years.

Operating Budget

The district is required by state law to adopt an annual operating budget. The Board of Directors approves the original budget and any amendments, and maintains the legal level of control at the line-item level. The budget is prepared on the accrual basis of accounting. All appropriations lapse at the end of the year.

Compensated Absences

The district's full-time employees are granted vacation leave in varying amounts. In the event of termination, the employee is paid for any unused vacation leave. Unused vacation leave as of June 30, 2013, totaling \$4,474 is included as a liability in the Statement of Net Position.

C. Cash

Cash and the certificate of deposit represent money on deposit in various banks. The district considers all highly liquid investments with an original maturity date of three months or less when purchased to be cash equivalents.

State of Tennessee law authorizes the district to invest in obligations of the United States or its agencies, non-convertible debt securities of certain federal agencies, other obligations guaranteed as to principal and interest by the United States or any of its agencies, secured certificates of deposit and other evidences of deposit in state and federal banks and savings and loan associations, and the state treasurer's local government investment pool.

All deposits with financial institutions in excess of Federal Deposit Insurance Corporation (FDIC) limits are required to be secured by one of two methods. Excess funds can be deposited with a financial institution that participates in the State of Tennessee Collateral Pool. For deposits with financial institutions that do not participate in the State of Tennessee Bank Collateral Pool, state statutes require that all deposits be collateralized with collateral whose market value is equal to 105 percent of the uninsured amount of the deposits.

All cash balances at June 30, 2013, were either insured through the FDIC or through the State of Tennessee Bank Collateral Pool.

D. <u>Capital Assets</u>

Capital assets activity for the year ended June 30, 2013 was as follows:

| | Balance | | | Balance |
|---------------------------------------|-------------------|----------------|-------------|-------------------|
| | 7-1-12 | Additions | Retirements | 6-30-13 |
| Capital Assets Not Being Depreciated: | | | | |

| Total | \$ 852,713 | \$ (21,778) | \$ 0 | \$ 830,935 |

Dalamaa

Dalamaa

E. Risk Management

The district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The district carries commercial insurance for all risks of loss, including general liability and workers' compensation coverage. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

F. Retirement

Plan Description

Employees of the district are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A

reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for a disability that is the result of an accident or injury occurring while the member was in the performance of duty.

Members joining the system after July 1, 1979, become vested after five years of service, and members joining prior to July 1, 1979, were vested after four years of service. Benefit provisions are established in the state statute found in Title 8, Chapters 34-37 of the *Tennessee Code Annotated*. State statutes are amended by the Tennessee General Assembly. Political subdivisions such as the district participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of the plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at http://www.tn.gov/treasury/tcrs/PS/.

Funding Policy

The district requires employees to contribute five percent of earnable compensation. The district is required to contribute at an actuarially determined rate; the rate for the fiscal year ended June 30, 2013, was 6.2 percent of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for the district is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ended June 30, 2013, the district's annual pension cost of \$35,860 to TCRS was equal to the district's required and actual contributions. The required contribution was determined as part of the July 1, 2011, actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected three percent annual rate of inflation (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected postretirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. The district's unfunded actuarial accrued liability (UAAL) is being amortized as a level dollar amount on a

closed basis. The remaining amortization period at July 1, 2011, was five years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Trend Information

| | Annual | Percentage | | | Net |
|---------|--------------|-------------------------|---|----|------------|
| Year | Pension | of APC | | | Pension |
| Ended | Cost (APC) | APC) Contribution Oblig | | | Obligation |
| | | | | | |
| 6-30-13 | \$ 35,860 | 100 | % | \$ | 0 |
| 6-30-12 | 33,989 | 100 | | | 0 |
| 6-30-11 | 36,709 | 100 | | | 0 |

Funded Status and Funding Progress

As of July 1, 2011, the most recent actuarial valuation date, the plan was 93.04 percent funded. The actuarial accrued liability for benefits was \$.78 million, and the actuarial value of assets was \$.73 million, resulting in an UAAL of \$.05 million. The covered payroll (annual payroll of active employees covered by the plan) was \$.48 million, and the ratio of UAAL to the covered payroll was 11.45 percent.

The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

G. Long-term Debt

Note payable, due in annual installments of \$44,765 on July 1 of each year, 5.21% per annum; balance due in full on July 1, 2015, secured by equipment.

\$82,858

Less current maturities

(40,441)

Total \$ 42,417

Future maturities of long-term debt as of June 30, 2013, are as follows:

| Year Ending | | | |
|-------------|-----------------|-----------|--------|
| June 30 | Principal | Interest | Total |

|---|---------------------------|
| Balance, June 30, 2013 | \$ 82,858 |

Interest cost incurred for the year ended June 30, 2013, was \$6,326 all of which was charged to expense.

VII. OTHER NOTES – DISCRETELY PRESENTED ROANE COUNTY INDUSTRIAL DEVELOPMENT BOARD

A. <u>Organization</u>

The Industrial Development Board of the County of Roane, Tennessee, is a nonprofit corporation, which is incorporated under the provisions of the State of Tennessee. It is a component unit of the Roane County government and receives funding from various county funds. The function of the board is to attract and promote new industry for the county.

The board is appointed by the County Commission. In addition, the majority of funding for the board is provided by the county. The board is held responsible by the county for fiscal and operational matters. The county can exercise oversight as it deems necessary.

B. Summary of Significant Accounting Policies

Reporting Entity – The board is a component unit of the Roane County government, the primary government. It is made up of nine members appointed by the Roane County Commission of the primary government. The board's relationship with the primary government is that the board acts as a conduit for industrial development.

These financial statements present only the assets, liabilities, fund balances, and results of operations of the industrial fund. They are not intended to

present the assets, liabilities, fund balances, and results of operations of the County of Roane, Tennessee.

Basis of Accounting – Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Basic Financial Statements – Government-wide Statements – The board's basic financial statements include both government-wide (reporting the board as a whole) and fund financial statements (reporting the board's major fund).

In the government-wide Statement of Net Position, the governmental activities are presented on a consolidated basis and are reported on the full accrual, economic resources basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The board's net position is reported in two parts – invested in capital assets, net of related debt, and unrestricted net position, as applicable. When both unrestricted and restricted fund resources are available for use, it is the board's policy to use restricted resources first.

The government-wide Statement of Activities reports both the gross and net costs of the board's function. The function is also supported by the general government revenues. The Statement of Activities reduces gross expense (including depreciation) by related program revenues. Program revenues must be directly associated with the function. Program revenues include 1) charges to customers who use or directly benefit from goods, services, or privileges provided by a given function or program and 2) grants and contributions for operational or capital requirements of a particular function or program. Other items not identifiable with a program are reported as general revenues.

This government-wide focus is more on the sustainability of the board as an entity and the changes in the board's net position resulting from the current year's activities.

Accrual — Governmental activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when incurred.

Basic Financial Statements – Fund Financial Statements – The financial transactions of the board are reported in the General Fund in the fund financial statements. The fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The fund is reported by generic classification within the financial statements.

The following fund types are used by the board:

Governmental Fund – The focus of the governmental fund measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of the financial resources) rather than upon net income.

General Fund – The General Fund is the general operating fund of the board. All financial resources are accounted for in the General Fund.

Modified Accrual – The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. Exceptions to this general rule included: (1) accumulated unpaid sick pay, which is not accrued; and (2) principal and interest on general obligation long-term debt, which is recognized when due.

Budgets and Budgetary Accounting – The board follows these procedures in establishing the budgetary data reflected in the financial statements.

Formal budgetary integration is employed as a management control device during the year for the General Fund. The budget is adopted on a basis consistent with generally accepted accounting principles.

Net Position Classifications

Government-wide Statements

Net position is classified into two components as defined below:

- Net investment in capital assets consist of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- 2. Unrestricted net position all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements

The categories of fund balances are explained below:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (i.e., inventories) or legally or contractually required to be maintained intact (the corpus of a permanent fund). Nonspendable fund balance also includes the long-term portion of loans and notes receivable and property acquired for resale.

Restricted fund balances have constraints imposed by grantors, creditors, contributors, laws or regulations of other governments, or are imposed by law through constitutional provisions or enabling legislation.

Committed bund balances result when the government's governing body imposes constraints through formal action of the body. Committed amounts cannot be used for any other purpose unless the government removes the constraint using the same type of action that was used to commit those amounts.

Assigned fund balances are constrained by the government's intent for those assigned amounts to be used for specific purposes but are neither restricted nor committed. Intent should be expressed by the governing body, a body to which the governing body has delegated authority (i.e., a budget of finance committee), or an official that the governing body has designated.

Unassigned fund balances are any residual fund balances remaining after all of the other categories of fund balance have been determined is categorized as unassigned fund balance.

In accordance whit Governmental Accounting Standards Board (GASB) Statement No. 62, Codification of Accounting and Financial Reporting Guidance Continued in Pre-November 30, 1989 FASB and AICA Pronouncements, was issued in December 2010 and superseded GASB Statement No. 20. This statement incorporates FASB, APB and ARB pronouncements, not conflicting with GASB pronouncements, and issued on or before November 30, 1989, into the GASB authoritative literature.

Cash and Cash Equivalents – The board considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents.

Accounts Receivable – Accounts receivable consist primarily of amounts due from a related party. Amounts are reconciled monthly and assessed for collectability. Management does not believe an allowance for doubtful accounts is needed at June 30, 2013.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America

requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Other Assets – Other assets consist of a receivable from Roane Alliance, Inc. As this is a receivable from a related party, management believes it is 100 percent collectible.

Capital Assets – Capital assets, which include property, plant, and equipment assets, are reported in the government-wide financial statements. Capital assets are defined by the board as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| | Years |
|------------------------|-------|
| | |
| Water tanks/waterlines | 40 |
| Furniture and fixtures | 10 |
| Equipment | 5 |

Compensated Absences — Compensated absences are earned at a rate of one day per month for both sick leave and vacation time. Upon termination or retirement, all accumulated time is forfeited. On October 1, 2000, the employees of the board became employees of the Community Development Council, Inc., which changed its name in June 2001 to The Roane Alliance, Inc. Therefore, no accrual for compensated absences has been reflected in the financial statements.

Reclassifications — Certain reclassifications have been made to the prior year's financial statement presentation to correspond to the current-year's format. Total fund balance, net position, and changes in fund balance and net position were not affected due to these reclassifications.

Land Sale Deposits

Land sale deposits are received on land sales made by the board. The proceeds from the land sale deposits are used by the board to help defray initial legal and survey costs associated with the sales. The board then submits the remaining proceeds from the land sale to the Roane County government.

New Accounting Pronouncements

For fiscal year 2013, the PBA implemented Governmental Accounting Standards Board (GASB) Statements No. 63 and No. 65. Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, provides financial reporting guidance for deferred outflows and inflows of resources, originally introduced and defined in GASB Concepts Statement No. 4, Elements of Financial Statements, as a consumption of net position applicable to a future reporting period and an acquisition of net position applicable to a future reporting period, respectively. Further, Concepts Statement No. 4 also identifies net position as the residual of all other elements presented in a statement of financial position.

Statement No. 65, *Items Previously Reported as Assets and Liabilities* reclassifies and recognizes certain items that were formerly reported as assets and liabilities as one of four financial statement elements:

- Deferred outflows of resources
- Outflows of resources
- Deferred inflows of resources
- Inflows of resources

Concepts Statement No. 4 requires that deferred outflows and deferred inflows be recognized only in those instances specifically identified in GASB pronouncements.

During the year ended June 30, 2013, management determined the board had \$213,557 of legal and start-up costs that were originally capitalized as part of the land purchase. Due to the implementation of GASB 65 during the fiscal year, the entire amount now has to be recognized as an expense in the year that it was incurred. As a result, an entry was made to remove this amount from capital assets and adjust beginning net position for this amount.

C. Concentration of Credit Risk

As of June 30, 2013, the board had cash and certificates of deposit balances of \$472,607 with Regions Bank, \$135,054 with Citizens Bank, and \$57,312 with First Bank of Tennessee.

Cash is maintained at financial institutions and, at times, balances may exceed federally insured limits. The board has never experienced any losses related to these balances. Management of the board does not believe a significant credit risk exists at June 30, 2013.

D. <u>Lease</u>

Beginning July 1, 2002, the board began paying annual rent, which includes utilities of \$12,000. This agreement was renewed on January 1, 2012, for a five-year period ending December 31, 2017, with the rent set at \$1,000 per month.

E. Land Lease

The board entered into a lease agreement with Dienamic Tooling Systems, Inc., ("Dienamic") on December 31, 2004. Dienamic paid the board \$26,667 for three years as base rent and pays \$1 a year until December 31, 2021. The lessee has the option to purchase the leased property at any time for \$1.

| 2014 | \$ | 12,000 |
|-------|----|--------|
| 2015 | | 12,000 |
| 2016 | | 12,000 |
| 2017 | | 12,000 |
| | · | |
| Total | \$ | 48,000 |

F. Related-party Transactions

Roane County government is a related party of the board. Contributions totaling \$400,636 were received from the Roane County government for operational funding for the fiscal year ending June 30, 2013.

G. Risk Management

The board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The board's risks of loss are covered by a commercial package insurance policy. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years.

H. <u>Economic Dependency</u>

The board receives all of its operating funds from Roane County, and its budget is set annually by Roane County.

I. Capital Assets

Capital assets activity for the year ended June 30, 2013, was as follows:

| | | Balance 7-1-12 | | Additions | | Disposals | | Balance 6-30-13 |
|----------------------------------|-----|-------------------|----|-----------|----|-----------|----|--------------------|
| Capital Assets Not Being | | | | | | | | |

J. Operating Agreement

The board has entered into a Joint Operating Agreement with the Roane County Chamber of Commerce. The Roane County Commission (Visitor's Bureau) and the Roane County Community Development Council are known as the Roane Alliance. On October 1, 2001, the board's employees became employees of the Roane County Community Development Council, who changed their name to the Roane Alliance, Inc., in June 2001. As a result of the Joint Operating Agreement, the Roane Alliance receives a portion of the Industrial Development Board's annual budget to pay the following expenses:

- Salaries
- Payroll Tax Expense
- Health Insurance

- Property and Liability Insurance
- Expenses Related to Business Recruitment
- Auto Expenses for the Industrial Commissioner

Beginning July 1, 2005, the Industrial Development Board changed this agreement, and all funds were sent to the Industrial Development Board. The Roane Alliance paid the above-noted expenses and billed the Industrial Development Board for its share.

K. Prior-period Adjustment

During the year ended June 30, 2013, management noted that deposits held by the board for land sales were recorded as a long-term liability in the financial statements. These deposits are non-refundable and should have been recorded as revenue once the land sales were completed. As a result, an adjustment of \$138,175 was recorded to beginning net position as of July 1, 2012.

ROANE COUNTY, TENNESSEE NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended June 30, 2013

BUDGETARY INFORMATION

In prior years, the budgetary statements for the General Fund and major special revenue funds were presented as required supplementary information in the financial statements of its external financial report. Effective for the year ended June 30, 2013, these budgetary statements are presented as part of the basic financial statements. This change in presentation was done to be consistent in the presentation of the information for both municipal and county governments in Tennessee.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

<u>Solid Waste/Sanitation Fund</u> – The Solid Waste/Sanitation Fund is used to account for transactions of the Roane County Solid Waste Program other than landfill operations.

<u>Ambulance Service Fund</u> – The Ambulance Service Fund is used to account for transactions of the county ambulance service.

<u>Special Purpose Fund</u> – The Special Purpose Fund is used to account for animal shelter and fire prevention and control transactions.

<u>Drug Control Fund</u> – The Drug Control Fund is used to account for revenues received from drug-related fines, forfeitures, and seizures.

<u>District Attorney General Fund</u> – At July 1, 2012, the District Attorney General Fund was reclassified as an agency fund.

<u>Other Special Revenue Fund</u> – The Other Special Revenue Fund is used to account for transactions related to the operations of the recycling center and transactions for postclosure care cost of the landfill.

<u>Constitutional Officers - Fees Fund</u> — The Constitutional Officers - Fees Fund is used to account for operating expenses paid directly from the fee and commission accounts of the trustee, clerks, register, and sheriff.

Debt Service Funds

Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

<u>Rural Debt Service Fund</u> – The Rural Debt Service Fund is used to account for the accumulation of resources for the retirement of bonds and notes issued for the construction and improvements of county schools prior to the Harriman City School merger on July 1, 2013.

<u>Education Debt Service Fund</u> – The Education Debt Service Fund is used to account for the accumulation of resources for, and the payment of long-term debt principal, interest, and related costs of school related debt.

Capital Projects Funds

Capital Projects Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

<u>General Capital Projects Fund</u> – The General Capital Projects Fund is used to account for general capital expenditures for the county.

<u>Highway Capital Projects Fund</u> – The Highway Capital Projects Fund is used to account for road construction and renovations of the county road system.

Proprietary Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the county, or other governments, on a cost-reimbursed basis.

<u>Employee Insurance - Dental Fund</u> – The Employee Insurance - Dental Fund is used to account for the county's self-insured dental insurance program. Premiums charged to the various county operating funds and employee payroll deductions are placed in this fund for the payment of dental claims of county employees.

<u>Workers' Compensation Fund</u> – The Workers' Compensation Fund is used to account for the county's self-insured workers' compensation program. Premiums charged to the various county operating funds are placed in this fund for the payment of claims.

Fiduciary Funds

Agency Funds are used to account for assets held by the county in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

<u>Cities - Sales Tax Fund</u> – The Cities - Sales Tax Fund is used to account for the second half of the sales tax revenues collected inside incorporated cities of the county. These revenues are received by the county from the State of Tennessee and forwarded to the various cities on a monthly basis.

<u>City School - ADA - Oak Ridge Fund</u> — The City School - ADA - Oak Ridge Fund is used to account for the Oak Ridge city school system's share of education revenues collected by the county, which must be apportioned to the Oak Ridge school system on an average daily attendance basis. These collections are remitted to the Oak Ridge city school system on a monthly basis.

<u>Joint Venture Fund</u> – The Joint Venture Fund is used to account for transactions of the Judicial District Drug Task Force, a joint venture of the various law enforcement agencies of the Ninth Judicial District.

<u>Community Development - Agency Fund</u> – The Community Development - Agency Fund is used to account for transactions dealing with a revolving loan program for local businesses.

<u>Constitutional Officers - Agency Fund</u> – The Constitutional Officers - Agency Fund is used to account for amounts collected in an agency capacity by the county clerk, circuit and general sessions courts clerk, clerk and master, register, and sheriff. Such collections include amounts due the state, cities, other county funds, litigants, heirs, and others.

<u>District Attorney General Fund</u> – The District Attorney General Fund is used to account for restricted revenue held for the benefit of the Office of District Attorney General.

Roane County School Department

This section presents combining and individual fund financial statements for the Roane County School Department, a discretely presented component unit. The School Department uses a General Fund, four Special Revenue Funds, and a Capital Projects Fund.

<u>General Purpose School Fund</u> – The General Purpose School Fund is used to account for general operations of the School Department.

<u>School Federal Projects Fund</u> – The School Federal Projects Fund is used to account for restricted federal revenues, which must be expended on specific education programs.

<u>Central Cafeteria Fund</u> – The Central Cafeteria Fund is used to account for cafeteria operations in each of the schools.

<u>School Transportation Fund</u> – The School Transportation Fund is used to account for student transportation and school bus maintenance.

<u>Extended School Program Fund</u> – The Extended School Program Fund is used to account for transactions related to the Before- and After-School Program.

<u>Education Capital Projects Fund</u> – The Education Capital Projects Fund is used to account for building construction and renovations of the School Department.

Exhibit K-5

Roane County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds to the
Statement of Activities
Discretely Presented Roane County School Department
For the Year Ended June 30, 2013

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

| Net change in fund balances - total governmental funds (Exhibit K-4) | | \$ (778,160) |
|---|-----------------------------|----------------|
| (1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows: | | |
| Add: capital assets purchased in the current period Less: current-year depreciation expense | \$ 3,330,540 (2,531,647) | 798,893 |
| less. current-year depreciation expense | (2,001,041) | 130,033 |
| (2) The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to decrease net position. Less: net book value of assets disposed | | (3,199,146) |
| (3) Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Add: deferred delinquent property taxes and other deferred June 30, 2013 Less: deferred delinquent property taxes and other deferred June 30, 2012 | \$ 1,507,556 (1,053,822) | 453,734 |
| (4) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. Change in other postemployment benefits liability | \$ (1,080,842) | |
| Change in compensated absences | (15,347) | (1,096,189) |
| Change in net position of governmental activities (Exhibit B) | | \$ (3,820,868) |

SINGLE AUDIT SECTION

STATE OF TENNESSEE COMPTROLLER OF THE TREASURY DEPARTMENT OF AUDIT DIVISION OF LOCAL GOVERNMENT AUDIT

SUITE 1500 JAMES K. POLK STATE OFFICE BUILDING NASHVILLE, TENNESSEE 37243-1402 PHONE (615) 401-7841

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Independent Auditor's Report

Roane County Executive and Board of County Commissioners Roane County, Tennessee

To the County Executive and Board of County Commissioners:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Roane County, Tennessee, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Roane County's basic financial statements, and have issued our report thereon dated December 18, 2013. Our report includes a reference to other auditors who audited the financial statements of the Roane County Emergency Communications District and the Industrial Development Board of Roane County, as described in our report on Roane County's financial statements. This report does not include the results of the other auditors testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Roane County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Roane County's internal control. Accordingly, we do not express an opinion on the effectiveness of Roane County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Roane County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Roane County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Very truly yours,

Justin P. Wilson

Comptroller of the Treasury

Just Philse

Nashville, Tennessee

Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

Independent Auditor's Report

Roane County Executive and Board of County Commissioners Roane County, Tennessee

To the County Executive and Board of County Commissioners:

Report on Compliance for Each Major Federal Program

We have audited Roane County's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Roane County's major federal programs for the year ended June 30, 2013. Roane County's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Roane County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and*

Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Roane County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Roane County's compliance.

Opinion on Each Major Federal Program

In our opinion, Roane County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of Roane County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Roane County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Roane County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Roane County, Tennessee, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Roane County's basic financial statements. We issued our report thereon dated December 18, 2013, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the financial statements as a whole.

Very truly yours,

Justin P. Wilson

Comptroller of the Treasury

Nashville, Tennessee

December 18, 2013

Roane County, Tennessee Schedule of Audit Findings Not Corrected June 30, 2013

Government Auditing Standards require auditors to report the status of uncorrected findings from prior audits. There are no findings from the Annual Financial Report for Roane County, Tennessee, for the year ended June 30, 2012, which have not been corrected.

ROANE COUNTY, TENNESSEE

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended June 30, 2013

PART I, SUMMARY OF AUDITOR'S RESULTS

- 1. Our report on the financial statements of Roane County is unmodified.
- 2. The audit of the financial statements of Roane County disclosed no significant deficiencies in internal control.
- 3. The audit disclosed no instances of noncompliance that are material to the financial statements of Roane County.
- 4. The audit disclosed no significant deficiencies in internal control over major programs.
- 5. An unmodified opinion was issued on compliance for major programs.
- 6. The audit revealed no findings that are required to be reported under Section 510(a) of OMB Circular A-133.
- 7. The Child Nutrition Cluster: School Breakfast Program, National School Lunch Program, and Summer Food Service Program for Children (CFDA Nos. 10.553, 10.555, and 10.559) and the State Fiscal Stabilization Fund (SFSF) Race-to-the-Top Incentive Program, Recovery Act (CFDA No. 84.395) were determined to be major programs.
- 8. A \$300,000 threshold was used to distinguish between Type A and Type B federal programs.
- 9. Roane County qualified as a low-risk auditee.

PART II, FINDINGS RELATING TO THE FINANCIAL STATEMENTS

There were no findings relating to the financial statements of Roane County, Tennessee, as a result of our examination for the year ended June 30, 2013.

PART III, FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

There were no findings and questioned costs for federal awards.

ROANE COUNTY, TENNESSEE AUDITEE REPORTING RESPONSIBILITIES For the Year Ended June 30, 2013

There were no audit findings relative to federal awards presented in the prior- or current-years' Schedules of Findings and Questioned Costs.
